RCCC Recognition of Prior Experience Form

Candidates who have 3 or more years' experience in the Work Group Supervisors and/or Project Engineers role, may elect to have their prior experience recognised. Recognition of prior experience allows a candidate to proceed directly to the RCCC assessment without the need to attend a RCCC training course.

Please note: Candidates who fail the RCCC assessment via the recognition of prior experience process will be required to attend the RCCC training course in order to retake the assessment.

In order to demonstrate 3 or more years' experience in the role of Work Group Supervisor and or Project Manager, the table below must be completed, providing evidence of 3 or more years' experience. Experience must be supported by a manager or other senior role, with contact details. Evidence is subject to review, and evidence not able to be supported will be rejected.

Completed forms must be attached electronically to the RCCC Recognition of Prior Experience initial enrolment
